Software Engineering Master Students
Replicate (Your) Research

http://www.software-engineering-amsterdam.nl

60 EC
1 year
2 years part-time
4 month project

CWI

Requirements
Construction
Evolution
Architecture
Testing
Process

Student: Ammar Hamid
Supervisor: Vadim Zaytsev
Detecting Refactorable Clones Using PDG & Slicing

SATToSE'14
S

Student: Çiğdem Aytekin
Supervisor: Tijs van der Storm
What Programmers Do with Inheritance in Java

- *tools get significantly better*

- *explicit isolated replication*

- *fail fast, learn fast*

Seminar Series
on
Advanced Techniques
and Tools for
Software Evolution

http://sattose.org

- *study the original study*

- *confirmatory replication*

- *find&explain false positives*
